Tuck-in Filter Frame

It's as easy as

1

Place media on filter frame's spring tensioned retaining grid.

2

Press media and grid while tucking media under frame edges.

3

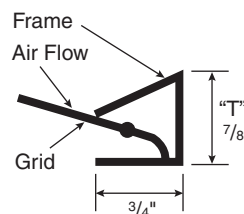

Release media and grid for a secure, compression-type seal.

- Easiest to service!
- Securely holds the filter media without clips, hooks, or latches.
- Fully corrosion resistant all metal frame.
- Spring tensioned retaining grid allows the filter media to be quickly and easily tucked under the front edges of the frame.
- Compression-type seal eliminates dirt by-pass.
- Frame is 26 gauge galvanized steel with 16 gauge galvanized steel wire (1" x 1") grid, rolled for spring tension.
- Gasketing available upon request at additional charge.
